## Disclosure

- I have no conflict of interest or financial issues to disclose.

UC San Diego  
HEALTH SYSTEM

## Objectives

To share with nursing colleagues, researchers and healthcare leaders an innovative nurse-led multidisciplinary project related to the:

- National healthcare issues of the homeless.
- Impact of "at risk" homeless patients on ED revisits
- Cycle of recidivism and its impact on "ED-frequent use"
- Emergency Department Community Placement (EDCPP)
  - Nurse-led, evidenced based project
  - Goals, implementation and magnet alignment.
  - Recidivism reduction and bridge to improved patient outcomes
  - Outcomes and challenges in community partnering
  - Real life program benefits!

UC San Diego

## Who are we?

**UC San Diego**  
HEALTH SYSTEM

## UCSDHS Emergency (Hillcrest) Department

### Mission Statement:

Provide the highest level of patient care and customer service while shaping the future of emergency medical care through innovation, research, and education.

Many homeless patients with co-occurring disorders use ED as shelter, safety-net and primary care provider. For many homeless patients we are home!

**UC San Diego**

## Magnet Journey

Margarita Baggett, MSN, RN  
UC San Diego Health System  
Chief Clinical Operating Officer

Nursing leadership is the driving force behind the **ED Community Placement Project**. This creative and innovative project exemplifies our professional model of "caring relationships" and devotion to nursing excellence. We are dedicated to improving the "quality of life" for the underserved in our community.

## Background: National Epidemic

2013 National Alliance to End Homelessness.

- A growing epidemic:
  - 3.5 million likely become homeless
  - Over 660 K/ per night
  - Over 239K are families
  - Nearly 400K are individuals

UC San Diego  
HEALTH SYSTEM

## Background: Homelessness in California

- 22% of the nation's homeless in 2013.
- 3<sup>rd</sup> leading state in the nation.
- Leads the nation in homeless school children.
- Lacks community resources and emergency shelter resources.

UC San Diego  
HEALTH SYSTEM

## Background: Homelessness in San Diego

San Diego 3<sup>rd</sup> largest homeless population in the US (2<sup>nd</sup> to Los Angeles and New York).

San Diego population 8,879 homeless\*

- 34% report high level of substance abuse\*
- 39% have severe mental illness\*
- 54% used Emergency Room within last year
- 60% have co-occurring disorders/substance abuse problems

---

## Assessing

### Why was this project important?

- Poor access to community services
- ED is the “safety-net”
- Caring for frequent users is challenging
- Links to cost effective healthcare
- Improved patient outcomes
- Right-service- right-venue
- Improve our ED culture

UC San Diego

---

## Asking: PICO Question

- P** = Among homeless patients with co-occurring disorders and substance use, that frequent the emergency department
- I** = does an evidenced based project that bridges them into community homeless prevention services, such as housing, substance abuse treatment and intensive case management
- C** = compared to standard discharge practices without options
- O** = result in a decrease in recidivism rates in our ED?

## Acquire/Appraise

Strong literature support and evidence is essential in evidence base practice.

- Cost effective programs providing frequent users social and medical services saves taxpayer dollars (Gonzales 2012).
- Interventions targeting frequent users reduce ED use(Jacobi, 2013).
- Case management appears to be the most cost effective for ED frequent use reductions( Shumway, 2010).

---

## ED Community Placement Project (EDCPP)

**In 2013 \$100k budget, 6 month pilot for alternative community placement options:**

- **Recidivism reduction with bridge to housing resources.**
- **Contracted beds in collaboration with community partners.**
  - Non-medical detox and substance abuse treatment
  - Quality care and bridge to wrap-around intensive community case management.
  - Links into emergency shelter, housing and primary care providers.
  - Right service-right venue approach
  - Successful pilot

## Alignment to Professional Practice Model

## Alignment to Theoretical Framework: Duffy's Quality Caring Model

## Adopt: Process Strategy!

## Apply: Implementation

[illegible]

## “Right Service-Right-Venue” approach

---

---

---

---

---

---

## Cost Effective Community Partnering!

Contracting with non-profit agencies proves to be a safe and cost effective approach.

---

---

---

---

---

---

## Community Partners (10 beds)

Volunteers of America

15 Day Detox  
Sobering Services

St. Vincent  
De Paul Village

Rapid Re-housing  
Program

San Diego Rescue  
Mission

Recuperative Care Unit  
(RCU)

Community agencies dedicated to assist homeless persons become self sufficient by intensive case management (wrap around services).

UC San Diego  
HEALTH SYSTEM

## Placement Process

Successful discharge planning and placement to EDCPP is contingent on community bed availability and patient willingness to be placed.

UC San Diego  
HEALTH SYSTEM

## Analyze: Impact on ED/Inpatient visits

## Analyze: Impact on ED Recidivism

## Advance and Adopt: Community Outreach!

Town Council Meetings

Community Site Visits

Successful partnering is achieved when we understand the community that our patients live in.

UC San Diego  
HEALTH SYSTEM

## Advance/Adopt

- UC Center for Health Quality and Innovation (CHQI).
  - Expansion to UC Davis, UC Irvine, UCLA and UC San Francisco
  - \$1.2 million over two years
- The aim in advancement is to influence “best practice” in ED discharge planning
- Continued community outreach

UC San Diego  
HEALTH SYSTEM

## Conclusions

### ED Community Placement Project :

- Placed over 157 patients and reduced recidivism by 58%
- Reduction in inpatient readmissions by 56%
- Proactively managed subset of patients who require disproportionate share of services and resources.
- Improved ED experience for patients and staff, decreased risk for high profile events.
- Approved to continue and will strengthen and expand community relationships to offer patients *"right service in the right venue"* and bridge to appropriate care options.
- Increased participation in community outreach efforts.
- Expansion of program to all 4 UC Sister sites!!

UC San Diego  
HEALTH SYSTEM

## Lessons Learned

UC San Diego  
HEALTH SYSTEM

## Our true "Bottom Line"

*"I was living on the streets and pregnant, suffering from epilepsy. I was placed in to a community service from the ER, linked with a high-risk OB doctor and delivered my baby. I was picked up by a program which helped me get my own apartment. Now I am in recovery and I have been clean and sober for more than a year. **The ED Community Placement Project saved my life**"*

PT signed UC San Diego Medical and Community Relations authorization./ken

UC San Diego  
HEALTH SYSTEM

## Conclusion

***“Our mission is to deliver outstanding patient care through commitment to the community, groundbreaking research and inspired teaching.”***

UC San Diego
